

Creating Service Credentials

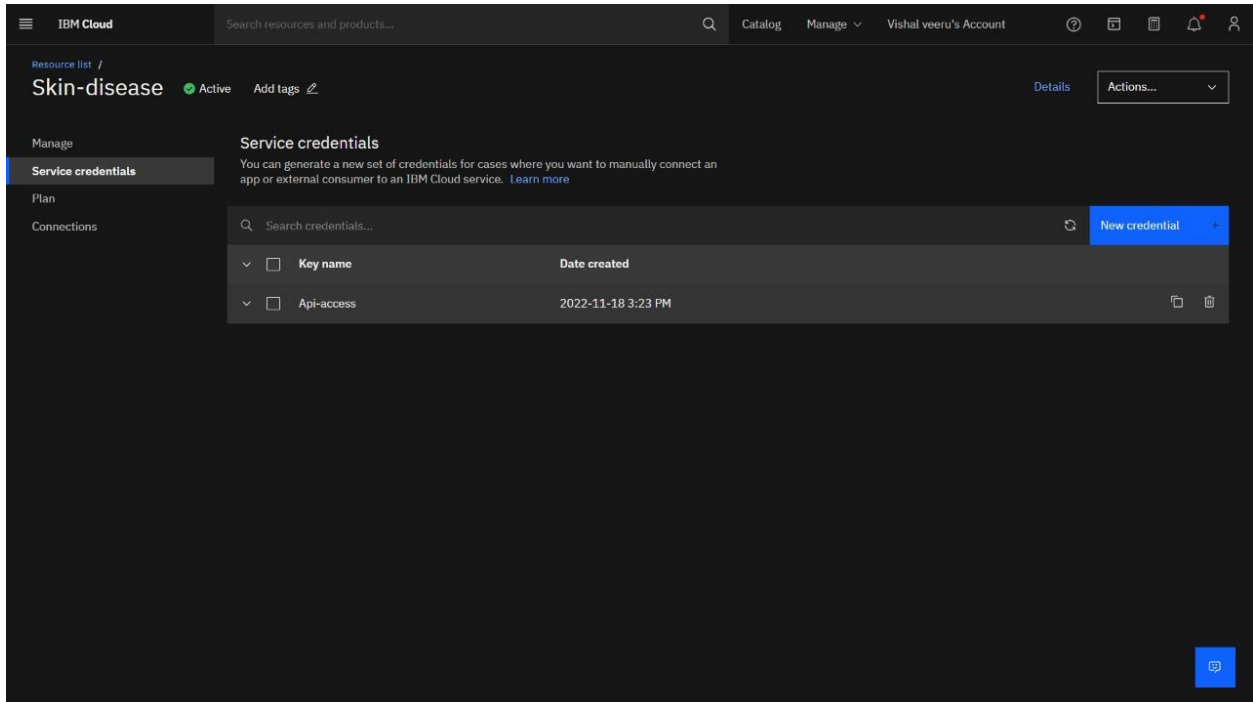

STEP 1: Creating new credentials

STEP 2: Provide information for creating new credentials.

STEP 3: Credentials created

The screenshot displays the IBM Cloud console interface. At the top, the header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user account (Vishal veeru's Account). The main content area is titled 'Skin-disease' with a status of 'Active' and an 'Add tags' link. A left sidebar shows navigation options: Manage, Service credentials (selected), Plan, and Connections. The 'Service credentials' section contains a description and a 'New credential' button. Below this is a table listing existing credentials.

Key name	Date created
Api-access	2022-11-18 3:23 PM

STEP 4: Credentials details

The screenshot displays the IBM Cloud console interface. At the top, the header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user's account (Vishal veeru's Account). The main content area is titled 'Skin-disease' and shows a list of service credentials. The 'Service credentials' tab is selected, displaying a table with columns for 'Key name' and 'Date created'. A single credential named 'Api-access' is listed, created on 2022-11-18 3:23 PM. Below the table, the details of the 'Api-access' credential are shown, including a JSON object with fields like 'apikey', 'host', 'iam_apikey_description', 'iam_apikey_name', 'iam_role_crn', 'iam_serviceid_crn', 'url', and 'username'. A 'New credential' button is visible in the top right corner of the credentials list.
